Subject Index to Volume 18

ABO blood groups, secretor status and disease, 74
Active chronic hepatitis with positive L.E. cell test and lupus nephritis, 288
Acute disseminated histiocytosis X: transition from eosinophilic granuloma of bone to Letterer-Siwe disease, 135
Acute effects of porcine calcitonin in Man, 258
Acute mitral incompetence, 102
Adrenal function, one-hour synthetic corticotrophin test for rapid assessment of, 50
Alcohol dehydrogenase, induction of, in liver and gastro-intestinal tract, 227
Alcoholic cirrhosis, epidemiology of, 222
Amiloride, hydrochloride, a hypercalciuric diuretic, 267
Annals, The (editorial), 197
Annual Meeting, Brisbane, 28-30th May, 1969, (Abstracts), 151
Antacid therapy, failure of, to hasten healing in chronic gastric ulcers, 113
Antibiotic, prophylactic, in peritoneal dialysis, 264
Authority in the Community of Learning, and in the Community, 337
Autoantibodies in healthy subjects, 130
Autoradiographic analysis of proteins synthesized by human lymphocytes, 12, 19

Blood-cell cycles in polycythaemia vera, 124
Blood groups, ABO, secretor status and disease, 74
Body composition, assessment of, in normal and obese subjects, 26
Brahma, Shiva and Vishnu—the Three Faces of Science, 351
Bronchogenic carcinoma, immunoreactive growth hormone in, 143
Burnet and Medicine, 301
Burnet and Science, 311

Calcitonin in man, acute effects of porcine, 258
Carcinoma, bronchogenic, immunoreactive growth hormone in, 143
Cardiac Society of Australia and New Zealand, Proceedings of, 171
Cirrhosis, alcoholic, epidemiology of, 222
Clonal selection theory, evidence for, and autoradiographic analysis of proteins synthesized by human lymphocytes in myeloma and macroglobulinaemia, 12
Complete Solution of Immunology, 345
Corticotrophin test, one-hour synthetic, for rapid assessment of adrenal function, 50
Cretinism, endemic, in eastern New Guinea, 217
Cushing's syndrome of nineteen years' duration, 283
Cystic fibrosis of the pancreas in adolescence and adulthood, 91
Cytogenetic studies in familial leukaemias, 7
Cytomegalovirus infection, generalised in a patient with lupoid hepatitis, 147

Diabetes mellitus, what is, 59
Diabetes, obesity and, (editorial), 1
Dialysis, place of prophylactic antibiotic in peritoneal, 264
Diuretic, a hypercalciuric, amiloride hydrochloride, 276

Emergency porta-caval shunt, experiences with, 238
Encephalopathy, portal-systemic, long term treatment with lactulose, 117
Endemic cretinism in eastern New Guinea, 217
Eosinophilic granuloma of bone, transition to Letterer-Siwe disease, 135
Epidemiology of alcoholic cirrhosis, 222
Exercise, hormonal response to physical, 84

Failure of potent antacid therapy to hasten healing in chronic gastric ulcers, 113
Fibrinogen, possibly defective, and hypofibrinogenaemia associated with fibrinolysis, 43
Fibrinolysis and hypofibrinogenaemia associated with a possibly defective fibrinogen, 43
Fibrinolysis and obesity: The effect of weight reduction, 32
Fibrosis, cystic of pancreas, in adolescence and adulthood, 91
Foreword to Man and His Science symposium issue, 293
Future of Man, Science and, 329

Gamma globulin, labelled with ^{131}I, survival studies on a commercial preparation of intraveous human, 271
Gastric iron binding substance (gastroferrin) in a family with haemochromatosis, 36
Gastric ulcers, chronic, failure of antacid therapy to hasten healing, 113
Gastroenterological, Society of Australia, Proceedings of, 182
Gastroferrin, gastric iron binding substance, in a family with haemochromatosis, 36
Gastro-intestinal bleeding, role of vitamin C, 248
Gastro-intestinal tract, effect of giardia lamblia infestation on, 232
Gastro-intestinal tract, and liver, induction of alcohol dehydrogenase in, 227
Genetic Improvement of Man, 317
Giardia Lamblia infestation, effect of, on the gastro-intestinal tract, 232
Growth-hormone, immunoreactive in a bronchogenic carcinoma, 143

Haemochromatosis, gastric iron binding substance (gastroferrin) in a family with, 36
Haemodialysis and tertiary hyperparathyroidism : renal homotransplantation and tubular dysfunction, 138
Hepatic function in patients with hypoxaemia due to chronic pulmonary disease, 243
Hepatitis, active chronic, with positive L.E. Cell test and lupus nephritis, 288
Hepatitis, lupoid, generalised cytomegalovirus infection in a patient with, 147
Histiocytosis X, acute disseminated with transition from eosinophilic granuloma of bone to Letterer-Siwe disease, 135

Histiocytosis X, (editorial), 81
Hodgkin's disease, autoradiographic analysis of proteins synthesized by human lymphocytes, 19
Hormonal response to physical exercise, 84
Hyperparathyroidism, tertiary and haemodialysis: renal homotransplantation and tubular dysfunction, 138
Hypofibrinogenaemia with a possibly defective fibrinogen associated with fibrinolysis, 43
Hypoxaemia due to chronic pulmonary disease, and hepatic function, 243

Immunology, Complete Solution of, 345
Immunoreactive growth-hormone in a bronchogenic carcinoma, 143
Introduction to Man and His Science symposium, 297
Iron binding substance, gastric, (gastroferrin), in a family with haemochromatosis, 36

Kinekard, physiological significance of, 108

Laboratory performance, physician's view of, 4
Lactulose, in long-term treatment of portal-systemic encephalopathy, 117
Letterer-Siwe Disease, transition from eosinophilic granuloma of Bone, 135
Leukaemia, chronic lymphatic, and autoradiographic analysis of proteins, synthesized by human lymphocytes, 19
Leukaemias, familial cytogenetic studies in, 7
Life's Complexities—Misgivings about Models, 363
Liver and gastro-intestinal tract, induction of alcohol dehydrogenase in, 227
Long term treatment of portal-systemic encephalopathy with lactulose, 117
Lupoid hepatitis, generalised cytomegalovirus infection in a patient with, 147
Lupus erythematosus syndrome, thymoma presenting with polyserositis and the, 55
Lupus nephritis, active chronic hepatitis with positive L.E. cell test and, 288
Lymphocytes, human, autoradiographic analysis of proteins synthesized by, 12, 19
Lymphoma, and autoradiographic analysis of proteins synthesized by human lymphocytes, 19
Lymphosarcoma, and autoradiographic analysis of proteins synthesized by human lymphocytes, 19

Macroglobulinaemia, and autoradiographic analysis of proteins synthesized by human lymphocytes, 12
Man, Future of, Science and, 329
Man, Genetic Improvement of, 317
Mitral, incompetence, acute, 102
Models, Misgivings about—Life's Complexities, 363
Mononucleosis, and infections, autoradiographic analysis of proteins synthesized by human lymphocytes, 19
Myeloma, evidence relevant to clonal selection theory, and autoradiographic analysis of proteins synthesized by human lymphocytes, 12

Necrosis, renal papillary; experimental observations relating to the pathogenesis of, 199
Nephritis, lupus and, active chronic hepatitis with positive L.E. Cell test, 288
Neurologists, Australian Association of, Proceedings, 166
New Guinea, eastern, endemic cretinism in, 217
Normal and obese subjects, assessment of body composition, 26

Obese subjects, assessment of body composition in normal and, 26
Obesity and Diabetes, (editorial), 1
Obesity, fibrinolysis and the effect of weight reduction, 32
One-hour synthetic corticotrophin test for rapid assessment of adrenal function, the, 50

Pancreas, cystic fibrosis of, in adolescence and adulthood, 91
Papillary necrosis, renal; experimental observations relating to the pathogenesis of, 199
Paraprotein patterns in Australia, 251
Peritoneal dialysis, place of prophylactic antibiotic in, 264
Physician's view of laboratory performance, 4
Physiological significance of kinekard, 108
Place of prophylactic antibiotic in peritoneal dialysis, 264
Platelet cycle in normal individuals, a, 127
Polycythaemia vera, blood cell cycles in, 124
Polyserositis, the lupus erythematosus syndrome, and thymoma, 55
Porta-caval shunt, experiences with emergency, 238
Portal-systemic encephalopathy, long-term treatment of, with lactulose, 117
Post-partum renal failure. ? The generalised Shwartzman reaction: three further cases and a review, 209
Proceedings of The Royal Australasian College of Physicians? Annual Meeting, May, 1969, 151
Proteins synthesized by human lymphocytes, autoradiographic analysis of, 12, 19
Pulmonary disease, chronic, hepatic function in patients with hypoxaemia due to, 243

Renal failure, post-partum. ? The generalised Shwartzman reaction: three further cases and a review, 209
Renal homotransplantation and tubular dysfunction: haemodialysis and tertiary hyperparathyroidism, 138
Renal papillary necrosis, some experimental observations relating to the pathogenesis of, 199
Reticulum cell sarcoma and autoradiographic analysis of proteins synthesized by human lymphocytes, 19
Rheumatism Association, Australian, Proceedings of, 178

Secretor status, ABO blood groups, and disease, 74
Science and the Future of Man, 329
Science, Three Faces of—Brahma, Shiva and Vishnu, 351
Science, Value and Meaning, 323
Shwartzman reaction, ? generalised and post-partum renal failure, three further cases and a review, 209
Survival studies on a commercial preparation of intravenous human gamma globulin labelled with ^{131}I, 271

Thoracic Society of Australia, Proceedings of, 188
Thymoma presenting with polyserositis and the lupus erythematosus syndrome, 55
Tubular dysfunction, renal homotransplantation and haemodialysis and tertiary hyperparathyroidism, 138

Ulcers, chronic gastric, failure of antacid therapy to hasten healing in, 113

Vitamin C, gastro-intestinal bleeding, the role of, 248

Zollinger-Ellison syndrome—report of three cases, 277
